Medindia Wellness for Corporate

Corporate Wellness program is tailored to the needs of the employees of your company to pursue a healthy lifestyle.

Medindia's Health applications are dynamic interactive and powerful learning tools that empower employees to better manage, and improve health and well-being. These applications track all aspects of physical and mental health over a period of time, and have in-built timely reminders that work as a trigger towards prevention.

Key Features of Corporate Wellness Program:

- 1. Employee Login & Sign Up:** Customized health site White labeled with company's name ensures secure login for all the employees
- 2. Health Information:** Captures Personal, Biometric and health data of the employees
- 3. Health Risk Assessment & Reports:** MedIndia provide employees with self-assessment tools to assess risks for the lifestyle diseases and guides them to take the necessary steps for prevention or treatment. The risks are calculated using health metrics such as Body Mass Index (BMI), Cardiac Risk, Hypertension and Diabetes Risk of the employees.
- 4. Personalized Health Page:** The in-built algorithms recommend health topics that would be relevant based on overall health and risk profile for personalized health pages of the employees.

- 5. Employees' Health Reports:** A simplified version of a secure cloud-based 'Electronic Health Record' contains the entire medical history including all health conditions, diagnosis, procedures, allergies, lab reports, and medications of employees. It is built with the highest levels of security and follows confidentiality measures which can be used for both for online or in person consultations.
- 6. Online Health tutorials (e- Modules) for Employees:** Most topics on My Health Page include the latest news, articles, videos, tutorials, self-assessment quizzes, and health tips from the MedIndia's trusted and authentic health content.
- 7. Tele-consultations for Employees:** This feature allows managing all teleconsultations with panel doctors as well as with MedIndia's network doctors through full secure text chat as well as audio / video communication.
- 8. Reminder Service for Drugs, Immunization & Appointments for Employees:** Important reminders for Medications, Doctor Appointments & Immunization can be sent via email and SMS to a valid mobile number of the employees.
- 9. Overall Health Index of Employees:** Provides access to Overall health index, Analytics & Reports of the employees including daily Portal usage of users, Average time spent per user and total time spent on the wellness portal.
- 10. Admin Dashboard:** Admin Dashboard in the Corporate Wellness Portal has various options to view reports on the overall health of all the employees. It captures statistical results of the employees and manages registrations and activation of employees and doctors.

All of the above features are available from a desktop, notebook or tablet browser as well as a mobile Smartphone app.

BENEFITS OF MEDINDIA PLATFORM

-  **Publishing Standards:** Certified ethical standards of publishing through Health On Net Foundation (HON Code).
-  **White labeled Website** with your company's name.
