

# Hospital WELLNESS Website

# Hospital Wellness Website

Lead the way for an empowered and healthy patient population

MedIndia's Hospital Wellness Website is a web based wellness solution for hospitals providing a 360° holistic health and well-being solution for the patients.

Our white label innovative tool will help you in retaining and attracting new patients through an easy to use interface.

The software helps patients with easy appointments and reminders, provides online tele-consultation platform with the doctors along with a micro-wellness website with personalised health information for each of your patients.

## Key Features of Wellness Program:

- 1. Patient Login & Sign Up:** Customized health site White labeled with Hospital's name ensures secure login for all the Patients.
- 2. Health Information:** Captures Personal, Biometric and health data of the Patients.
- 3. Health Risk Assessment & Reports:** MedIndia provide Patients with self-assessment tools to assess risks for the lifestyle diseases and guides them to take the necessary steps for prevention or treatment. The risks are calculated using health metrics such as Body Mass Index (BMI), Cardiac Risk, Hypertension and Diabetes Risk of the Patients.
- 4. Personalized Health Page:** The in-built algorithms recommend health topics that would be relevant based on overall health and risk profile for personalized health pages of the Patients.

5. **Patients' Health Reports:** A simplified version of a secure cloud-based 'Electronic Health Record' contains the entire medical history including all health conditions, diagnosis, procedures, allergies, lab reports, and medications of Patients. It is built with the highest levels of security and follows confidentiality measures which can be used for both for online or in person consultations.
6. **Online Health tutorials (e- Modules) for Patients:** Most topics on My Health Page include the latest news, articles, videos, tutorials, self-assessment quizzes, and health tips from the MedIndia's trusted and authentic health content.
7. **Tele-consultations for Patients:** This feature allows managing all teleconsultations with panel doctors as well as with MedIndia's network doctors through full secure text chat as well as audio / video communication.
8. **Reminder Service for Drugs, Immunization & Appointments for Patients:** Important reminders for Medications, Doctor Appointments & Immunization can be sent via email and SMS to a valid mobile number of the Patients.
9. **Overall Health Index of Patients:** Provides access to Overall health index, Analytics & Reports of the Patients including daily Portal usage of users, Average time spent per user and total time spent on the wellness portal.
10. **Admin Dashboard:** Admin Dashboard in the Wellness Portal has various options to view reports on the overall health of all the Patients. It captures statistical results of the Patients and manages registrations and activation of Patients and doctors.

All of the above features are available from a desktop, notebook or tablet browser as well as a mobile Smartphone app.

# BENEFITS OF MEDINDIA PLATFORM
